

# National Influenza Vaccination Week

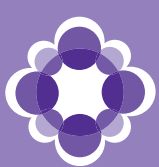

## It's not too late to fight the flu.

**As long as you have vaccine available, offer it to every patient who enters your clinic or office.**

If you tell your patients, they will listen to you. Recommend the flu vaccine to your patients who might not think they need it: people aged 50 years or more, those with chronic illnesses, and pregnant women. By getting vaccinated now, your patients can avoid discomforting symptoms, missing work or school, and scheduling another visit to your office. Set a good example and get vaccinated yourself!

**GET MORE INFORMATION AT [WWW.IMMUNIZEFLORIDA.ORG/FLU](http://WWW.IMMUNIZEFLORIDA.ORG/FLU) OR E-MAIL [IMMUNIZATION@DOH.STATE.FL.US](mailto:IMMUNIZATION@DOH.STATE.FL.US)**

**Flu and Pneumococcal  
Prevention**  
Part of a Healthy Lifestyle.
