

INTEROFFICE MEMORANDUM

DATE: November 22, 2002

TO: County Health Department Directors/Administrators

FROM: Bonita J. Sorensen, M.D., M.B.A. *B. Sorensen*
Deputy State Health Officer

SUBJECT: Bureau of Immunization Assessments Ranked by County for
Fiscal Year 2001-2002

INFORMATION ONLY

The attached results of the Bureau of Immunization assessments have been ranked according to performance by county and are presented for your review. Individual analyses for kindergarten and seventh grade status, vaccine accountability, and county health department immunization status of two-year-old children have previously been sent to you. The survey of two-year-old children reflects immunization levels statewide and by 12 selected counties: Broward, Miami-Dade, Duval, Escambia, Hillsborough, Lee, Leon, Orange, Palm Beach, Pinellas, Polk, and Volusia. I would like to compliment the counties who have achieved a high percentage in immunization levels and vaccine accountability.

Please note the line drawn through each ranking on the attached sheets. Those counties above the line have reached the state goal for that assessment, and those listed below the line have not yet reached the established goal. We hope you will find this a convenient and useful tool in evaluating your immunization activities.

If you have any questions, please contact the immunization field staff in your area or Frances Dennard, Bureau of Immunization, at (850) 245-4342 or SunCom 205-4342.
