

Charlie Crist
Governor

Ana M. Viamonte Ros, M.D., M.P.H.
State Surgeon General

IMPORTANT MESSAGE

Vaccine Orders Delayed

Due to a recent computer virus infection within the state network, the Florida Vaccines for Children (VFC) Program has lost the use of our servers and therefore, cannot process vaccine orders at this time. We anticipate we should be able to submit vaccine orders no later than Thursday, July 29. Please be aware that this will delay shipping for many orders. The regular shipping schedule will resume on Monday, August 2. Please be assured we are working to enter all orders as soon as possible. We apologize for any inconvenience this has caused.
